## Folk High School

**Furuboda Folk High School** is a form of adult education. We offer nine different courses. You can choose between general courses at various levels or take one of our specified courses in music, IT or personal assistance.

General courses can serve as entry into higher education. These courses are intended for those who have not completed secondary school, whereas specified courses are designed to further develop an interest in a particular subject.

We have the experience and skills to enable students living with disabilities to feel comfortable and to develop during their time at the Folk High School.

In the summer we offer short courses on various subjects, such as music, drama and golf. The school is located very close to the beach, which is ideal for activities such as sunbathing and water sports.
